

AquaFinesse® Pool

With one simple weekly treatment AquaFinesse® POOL offers:

- Crystal clear, pure safe bathing water
- Treatment which is gentle, even on the most sensitive of skin
- No more slimy walls or calcium deposits
- Up to 70% reduction in the need for chemicals

Instructions for use:

Start Up and Weekly Maintenance

Follow our 3 Step Process: 1. Balance 2. Sanitize 3. AquaFinesse® POOL Water Care tablet(s)

AquaFinesse® POOL Water Care is only intended for use in swimming pools. These instructions are applicable if your pool water is properly balanced.

Each AquaFinesse® POOL Tablet is sufficient for 1 week's treatment of 20,000 gallons / 76,000 liter.

A double dose of AquaFinesse® POOL Water Care should be used during the first 4 weeks and during the 4 weeks prior to closing your pool.

1. Ensure that the pool is vacuumed and the filter backwashed/rinsed/cleaned regularly.

2. Balance your pool for Alkalinity, pH and Calcium hardness.

3. Add your approved sanitizer to the pool per the manufacturers instructions.

4. Add AquaFinesse POOL Tablets to the floating dispenser or skimmer. *

*see dosage calculation chart
